FRONT-END DEVELOPER - WEB DEVELOPER JUNIOR

I have been learning web development for 9 months, with a focus on the front-end and Javascript.
I am now working with the MEAN stack (MongoDB, ExpressJS, AngularJS, NodeJS) to develop applications from end to end.
I am looking for a position or an internship, with the opportunity to work on challenging development projects, to learn and progress.

Education

Master of Economics and Business, major in Sports and Events	Grenoble, France	2009
Bachelor of Economics	Le Mans, France	2006
High school degree, major in Science	Le Mans, France	2002

Skills – Web Development

HTML5
CSS3
- **Responsive Design:** media queries, **responsive images** and **flexbox**
- Preprocessor: **SASS**
- Stylesheet organization: use of **BEM** and some **SMACCS** methodologies

Javascript
- **DOM** Manipulation
- **Object Oriented** Programming and **Functional** Programming
- **JQuery**
- **AJAX**
- **NodeJS and Npm**

Framework:	**AngularJS**, **ExpressJS,**
Database:	**MongoDB, Mongoose,**
Testing:	**Jasmine**, **Karma**, **Protractor,**
Version Control:	**Git, Github**,
Command Line:	**Sass, Git, Node, Mongo, Heroku** and working with the **File System.**
Task runner:	**Npm scripts**
Cloud Platform:	**Heroku**

Languages

French	Native
English	Fluent
Japanese	Basic to Conversational

Experience

Barista – Cafe jobs	Tokyo, *Japan*	2015 ~
Barista – Cafe jobs	Melbourne, *Australia*	2013 – 2014 (working-holiday Visa)
Barista – Cafe jobs & Hospitality	Tokyo, *Japan*	2012 – 2013 (working-holiday Visa)
Project Manager at **Publicis**	Paris, *France*	2010 – 2012

Publicis is an advertisement company.
I used to handle projects for our main client, Renault, a car constructor, for every new car launch.
I took care of the communication between teams (creatives, executives and producers), the schedule to deliver movies, pictures and prints in time, benchmarks and budget, and finally the management of problems that could occur to smoothly run the project.

Internships	Grenoble, *France*	2009 – 2010

- Creation and management of a BMX world event
- Organization of the snowboard french cup
- I wrote my graduation memoir about the development of a real wear brand

Hobbies

I like watching movies and series and stay informed about it. I sometimes play video games, especially role playing and strategy ones. Books are part of my hobbies and right now they are a lot more about javascript and code than anything else. I also like music, practicing sport and of course, coding.
